Children's sensitivity to graded uncertainty

## Methods

We report how we determined our sample size, all data exclusions (if any), all manipulations, and all measures in the study.

### Participants

### Material

### Procedure

### Data analysis

We used R (Version 3.4.3; R Core Team, 2017) for all our analyses.

## Results

(Hembacher & Ghetti, 2014)

## Discussion

## References
